RURAL SURVEY UNITED CHURCH IS UNDER WAY

Study of Census Area in
Manitoba Precedes Training

KINGSTON, Aug. 26.—Prof. J. R. Watts of Queen's University, who is to make a rural survey for the United Church of Canada, has completed two weeks work in the census bureau, Ottawa, on the region which is to be surveyed. Beginning with September he will join Rev. John A. Cornie of Winnipeg in the field work, which is to cover census division 11, Manitoba, subsequently giving the "Tobacco Men" of the province the benefit of the survey.

Thus will be brought to a climax a series of studies which have led Dr. Watts to make district surveys of religious, social and economic conditions in parts of rural Ontario and Nova Scotia. He has also represented the home mission board of the United Church in a plea to the board of education that candidates in training for the ministry shall receive courses leading to an appreciation of the fundamentals of rural life. He has the joint backing of the two boards in bringing the whole survey before the conference of the governing bodies of the colleges which he is to visit in October.

Roosevelt Threatens Public Exclusion At Walker Trial

APPLAUSE OF HEARERS IRKS N.Y. GOVERNOR

Ouster Proceedings Continue Following Some Sharp Clashes

By Walter T. Brown
Associated Press Staff Writer
EXECUTIVE CHAMBER, Albany, Aug. 26.—Gov. Roosevelt today threatened to exclude the public from the Walker court hearing of Mayor James J. Walker of New York, after a hour of applause following a pointed exchange of remarks between Governor Roosevelt and Arthur W. Hilly, New York city corporation counsel.

Seabury, counsel to the Rockefeller investigation committee, contending Hilly about an enquiry into the charges against the mayor's brother, Dr. William Walker.

"I am sorry," he said, "but I can't have a hearing of this kind. I shall have to exclude the public from the hearing." Hilly replied: "I am sorry, but I can't have a hearing of this kind. I shall have to exclude the public from the hearing."

"I am sorry," he said, "but I can't have a hearing of this kind. I shall have to exclude the public from the hearing." Hilly replied: "I am sorry, but I can't have a hearing of this kind. I shall have to exclude the public from the hearing."

"I am sorry," he said, "but I can't have a hearing of this kind. I shall have to exclude the public from the hearing." Hilly replied: "I am sorry, but I can't have a hearing of this kind. I shall have to exclude the public from the hearing."

Although Tame Event Scientifically Total Solar Eclipse Will Be Popular

Inadequate Starry Background May Prove Disappointing to Astronomers, But Green Corona is Main Object of Scores of Scientists

Who Will Be on Hand

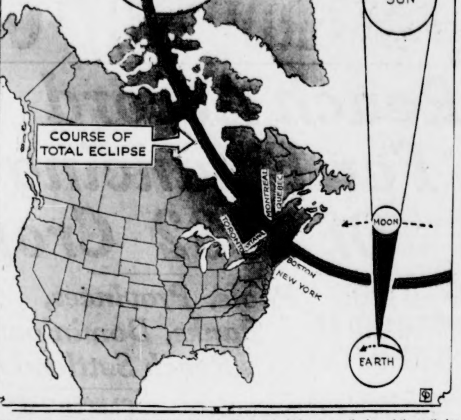

Illustration shows the path which will be taken by the moon's shadow across the face of the earth during the total solar eclipse on August 21. It will be visible as a total eclipse only along the black line, although persons in most of the United States will view it as a partial eclipse.

By Frederick Hotson
OTTAWA, Aug. 26.—The total solar eclipse which will be seen at its best in Quebec and several of the New England states on Aug. 21, will be a rarely popular event of its kind, but astronomically, according to the National Research Council, it will be one of the best.

It will be popular because the moon's shadow will travel across a very thickly settled eastern region where there will be plenty of people to see it.

It will not add greatly to scientific value of information, however, unless scientists who are gathered at the eclipse sites are able to discover the element that is missing in the green corona line.

Beginning at the north polar neighborhood at dawn, the belt of the moon's shadow will sweep to the southwest across Hudson Bay, then across Canada, and finally across the United States.

President Hoover to the White House. At present we are having a very good view of the sun, but there is a great deal of light in the sky. We have no freedom but have to be careful of the sun.

Mr. Baldwin was looking up at the sun. He was looking up at the sun. He was looking up at the sun. He was looking up at the sun. He was looking up at the sun.

W. T. Thompson Has Success In Raising Many Russian Mink

Alberta's first mink ranch is successful in raising many Russian mink. The ranch is located in the northwestern part of the province.

That fish is rapidly gaining in popularity is attested by the fact that the last fair sale in London was a record for 88,000 mink were sold.

A store and a handsome coat trimmed in level fish are now on display in Thompson & Dym's store window.

BENNETT TO OPEN C. N. EXHIBITION

RADICALS OF COAL DISTRICT GIVEN BLAME

Patrols Still Guarding the
Highways—Red Literature
Distributed

BENTON, Ill., Aug. 26.—Franklin county officials, having repelled the invasion of striking miners from northern and central Illinois who sought for the part of coal mines in this region following a wage reduction for union miners, today said they were prepared to direct attention toward alleged "radical" activities within the county.

During the latter days shortly continued to guard highways leading into this city, centre of a large bituminous coal producing area, but there was no indication of an increase in the number of the strike miners, especially the foreign element.

County authorities charge extreme excesses and literature have been distributed in the coal fields recently.

Further bitter controversy which finally resulted in the placing into effect of the \$4 daily wage scale, struck officials of the United Mine Workers of America charged the radicals with the part of the strike miners, especially the foreign element.

CHARGE HUGE RELIEF FUND GRAFT IN B.C.

Over \$1,000,000 Diverted From Destitute," Says M. H. McGeough

VICTORIA, Aug. 26.—Direct appeal to His Honor the Lieutenant Governor of British Columbia to investigate the charge that "over one million dollars was diverted from the destitute and given to those who were not entitled to it," has been made by M. H. McGeough, who was director of unemployment relief in this province for the Dominion government last winter.

Mr. McGeough states in his letter to the lieutenant governor that as the expiry of the unemployment relief continuance act of 1932 on May 1 abolished his position, he is exercising his prerogative as a private citizen in forwarding a memorandum to his honor.

MONEY DIVERTED
 The memorandum alleges among other things that:
 Money forwarded from Ottawa to the British Columbia government for unemployed relief was diverted to other uses, that the provincial minister of finance and never received the public works department.

Of the sixteen thousand people on relief in B.C. in 1931, a large proportion were not entitled to assistance.

Purchasing of supplies and equipment for relief camps was done at extravagant and unnecessary prices through public works officials instead of the purchasing board.

The Dominion government returned over four hundred thousand dollars of vouchers for adjustment of price.

Mr. McGeough was the centre of angry scenes during the session of the British Columbia legislature when he introduced a resolution to have the government investigate unemployment expenditures and Mr. McGeough made charges of improper expenditure of money.

CENTURY OLD CHURCH WILL GIVE WELCOME
 General Council of United Church Will Meet at Hamilton

HAMILTON, Aug. 26.—Having adjourned in 1929 at the annual meeting in St. Andrew's Church, London, the General Council of the United Church of Canada will assemble at the First Church, Hamilton, for biennial sessions beginning September 28 next. First Church is the successor of the earliest Methodist congregation in the city and traces its origin to a gathering for worship held in 1801 in the kitchen of Richard Springer, before the foundation of the city. The present site was donated by Robert Lund, who gave a quarter of an acre of land. It was first occupied in 1824 by a frame building. An entire city block is now a quarter of an acre. The structure if intense seismic capacity and historical interest, is suited to the purposes of the fifth General Council of the United Church of Canada.

FIRST COUNCIL
 It was recalled that the first General Council was held in Metropolitan Church, Toronto, in 1925, the second in American Presbyterian Church, Montreal, in 1926, the third in Young Church, Winnipeg, in 1927, each of those churches having closely linked with the history of the city.

The Springer family who sponsored the first services in the Hamilton district were descendants of Rev. David Springer, a Scotch-Finnish Loyalist, who was shot at Williamsburg, Ind., in 1775, during the fight against the British. Their Canadian holdings were sold in 1813 to George Hamilton, founder of the city. Services were quickly transferred from kitchen to hall, and soon a "class" flourished and Springer's church became the first church building erected.

Lord Incheape's Will Distributes \$200,000 Legacies

LONDON, Aug. 26.—Legacies totalling more than \$2,000,000 were bequeathed by Lord Incheape to about 600 officers of the Peninsular and Oriental and British India Navigation Lines. It was learned today.

Lord Incheape, noted British financier and shipping magnate died last May, and his will described acknowledgment of their loyalty and fidelity to him.

Two hundred and two captains will receive £100 each, while 300 chief officers and the same number of chief engineers will receive £50 each.

Utopia was the imaginary island of Sir Thomas Moore's ideal state where the conditions of life and government were ideal.

BENNETT HAS CANADA PLEA FOR MARKETS
 Appeals to Countrymen to Stand by in Trade

TORONTO, Aug. 26.—Calling on Canadians to seize the opportunity offered by trade within the empire, Prime Minister B. Bennett formally declared the 54th Canadian National exhibition open today.

"If Canada is to open her proud position as fifth trading nation of the world," said the prime minister, "her people must exert every effort to make the country and its customers throughout the empire."

"I appeal to Canadians everywhere not to let this country down," he declared. "I ask that our new responsibilities be discharged with the same vigor and resourcefulness with which Canadians have done their duty in the past."

The purpose of the Empire bazaar at Ottawa, he continued, was to secure mutual advantages to the members of a great family.

Agriculture was still the basic industry of the country and he could assure the farmers of Canada that there had been tangible achievement for their benefit.

In the harbors of the United Kingdom, he pointed out, ships bearing foreign flour would have to pay \$3,000 duty on each ton. There was also a substantial advantage to be gained by the exporter of Canadian bacon to the United Kingdom.

In his first public speech since the closing of the exhibition, Bennett's confidence in his agreement with suggestions that the conference agreements would work them to foreign lands.

TAIL FEEDINGS
 WASHINGTON, Aug. 26.—The disruption of agriculture reported today said feedings of about 20,000, 600 acres of winter wheat were injured by a heavy rain.

The plant, with allowance for usual changes in plan, is expected to be planted in the week of August 27 and 28.

Happy Couple Bicycling Around World
 Tokyo

By PERI WEICHER
 TOKYO, Japan, Aug. 26.—A young couple who are now in the seventh year of their honeymoon journey around the world expect shortly to arrive in Canada for a leisurely trip across the Dominion.

They are Mr. Frank Hecker and his wife, Ernestine Hecker, who left Munich, Bavaria, on August 25, 1925, a few days after they were married, and have been travelling ever since, by bicycle. They have just arrived in Tokyo, from Nagasaki and Kobe.

Their most pleasurable experiences throughout their whole trip so far, Mr. Hecker said, have been in India, but they are looking forward to enjoying a trip through Canada and spoke enthusiastically of what they have heard of its wonderful scenery.

At its best in summer for travellers such as they are, they think. They also expect to find their trip through Canada very enjoyable.

Though their travels so far have been replete with encounters, the young couple think their new adventure, and they are hoping to be able to do a day's work in the north Pacific, which is the north Pacific, the Aleutians, Alaska, and the west coast of Canada.

Falling a motorist they hope to get hold of a motorcycle, with which to travel through North America.

After leaving Bavaria, the Heckers cycled, through twenty-four countries before reaching Japan: Austria, Italy, France, Belgium, Spain, Portugal, Serbia, Rumania.

Trim Lines For Hostess At Air Race

The trim lines of airplanes will catch your eye as the National Air Races, which start under way Aug. 27 and last until Sept. 6 in Cleveland this year, but no less one catching will be Katherine Myers, shown above, who will be in line of the races for a day. Miss Myers will officiate as hostess on the flyers on Sunday, Aug. 28.

Albania, Greece, Bulgaria, Turkey, Syria, Mesopotamia, Persia, Beluchistan, Burma, Siam, Federated Malay States, Java, Bali, Celebes, Philippines and China.

They talked six languages: Turkish, Arabic, Greek, Spanish, Italian and English while doing this, the latter during the two years they spent in India. They expect to be another two or three years on the road before they return home. They intend to write a book describing their decade of travel, utilizing the vast quantity of photographs and notes they have accumulated and also to give lectures. While travelling they support themselves by such money as they can earn and help they receive from friends.

During their journeyings, the Heckers have come under attack by brigands, chased by Bulgarian frontier officials, dined and taken on tiger hunts by an Indian rajah, and ordered out of Persia because the bride wore no veil.

In Japan they have received many kindnesses from country people, as well as from German and other foreign residents.

Order To Close Finds Mexican Saloon Doors
 TIA JUANA, Mex., Aug. 26.—Police to close saloons at 11:30 p.m. caused ructions in this town, where they reason threw the key way years ago. One patron ordered the janitor to lock up. "I'll have to go home after the door," said the bewildered man. "I've been using it for years on my chicken coop."

Zoroastrianism was the designation generally employed to denote the ancient religion of Persia prior to the Mohammedan conquest of Iran.

culation books of the Edmonton Bulletin.

IF IT WILL HELP ALBERTA
THE EDMONTON BULLETIN IS FOR IT

FRIDAY, AUGUST 26

ALBERTA GETS ONE-TENTH

Alberta Wheat Pool officials estimate the world
wheat crop this year at three million bushels less
than that of last year. Canada alone had a
carry-over of 130,000,000 bushels from last year,
the prospect of a world shortage does not have to
be taken into account in estimating the price
outlook for the present wheat season.

When prices are down a good crop is even more
important, to the grower and to the country, than
when prices are high. The price of wheat is at
corresponding levels to those of last year, Canada,
with an estimated crop of 47,000,000 bushels, stands
about twice as much as the United States and gets
as much money for the crop as in 1921.

Last year Alberta produced 130,000,000 bushels,
and the yield this year is expected to reach that
figure. That is a record for the province, and the
growth on this continent is now grown in Alberta,
and one-tenth of all the money that comes to this
continent to pay for exported wheat will come to
the farmers in this province.

A FEW MONTHS LATE

Seven of the nine provinces are now engaged in
planting on farm families. In the past, it has
adverse conditions by the failure of employment,
while British Columbia is preparing to bring a
settlement scheme into effect.

Manitoba and Saskatchewan have made the most
progress thus far in actually locating families. In
other provinces the work is still in the planning
stage. Which is to say that these provinces are
practical results will not be secured in any notable
way until next year. The season is now too far
advanced for the plan to be carried out in the
anything during the present year, and his family
will have to be taken care of until next summer.

Before less than a year, of course, is a good
cause. But the regrettable feature is that the gov-
ernments did not get their thinking and planning
far enough to get the work started in the spring
in large numbers as soon as spring opened.
Had that been done, the relief problem of the
coming winter would be substantially less formidable
than it is promised to be.

THE SONS OF REBELLION

Any hope that the action taken at Nelson, B.C.,
would improve the domestic situation of the Dou-
blinors with the advisability of respecting law and
the rights and interests of other people has to be
abandoned.

At Canora, Saskatchewan, the police rounded up
fifty of the Sons of Freedom, of both sexes, and
most of them were taken to the penitentiary to
suffer a rude passage. Peter Vergin has resigned
from the presidency of the Christian Community
of Universal Brotherhood, and in the Vergin dis-
trict in the last two months the Sons of Freedom
went by in smoke and two barns and a church were
destroyed by fire "voluntarily of incendiary origin."

The plain fact is that the Sons of Freedom are in
a state of rebellion. Not altogether a passive rebellion
either, since they are burning the property of other
people and of the police. They are also using the
accepted conditions under which they or their
parents gained entrance to Canada. They are de-
fying the province and federal authorities to make
them observe the law; not a new law, but
laws that were in existence and that the Dou-
blinors have known to be in existence when they
came to the Dominion to reside.

In this the Sons are doing nothing more or
less than they have done during consistently and
persistently over the years. Canada is the crowning
milestone of relieving the life of their presence
and penalties. With the exception that if any
of them did not know that the law was in effect
years ago they certainly know now. If they
extended then to ignore them they are offending now
deliberately.

Whatever it is to be done with the Sons, one point
is definite. If they are going to continue to
reside in the Dominion, they will have to wear clothes and send their
children to school. These, and they should be told
that, are two things that the Sons of Freedom
must do. What measures will have to be taken to make
them comply with these minimum requirements of
citizenship with which they will have to comply
unless they are to blame for the disorderly and
non-pleasant.

SAVING THOUGH "ECONOMY"

Fifty five of the higher officials of the Canadian
National Railways are being "fired," their depart-
ments combined with others, and the survivors
ordered to salary cuts which run from ten to
twenty five per cent.

That of course is in keeping with the "economy"
that is in vogue today in the Dominion
public employer. If the organization has been top-
heavy, or the salaries paid out of line with those
paid by other railways, raising numbers and rates of
aid to justify efficiency in numbers and rates of

pay. And if the conclusion is accepted that the
National will not have and cannot get any more
business than it is handling at present, no doubt
it can get along with fewer supervisors and men
to have to get them at lower wages.

But it is plain to every person who knows the
circumstances that savings for the National Rail-
ways, and for any other railway system, does not
lie in firing men and cutting pay. The railways
need more business, and more employees, and
third rate salaries. The "economy" process might
conceivably be carried to the point where there
would not be a railway employee left on a train
running but that would solve the problem that
confronts the railways.

One need of the National and every other rail-
way system at this juncture is more efficient men,
knows how to fight the bus and truck competition
and has authority and spunk enough to do it. Until
that is done the railways can go on firing men and
cutting pay and losing money until they wind up
in bankruptcy, and the taxpayers have to take over
the debt and pay for the wreck. But the thing
they cannot do is to extract charges from long
haul traffic alone to meet overhead charges and pay
dividends on the capital sunk in their roadbeds
and equipment.

The taxpayers, who must ultimately foot the
bill if the railways go "broke," would have less
cause for alarm if the railways were showing
somewhat less loss for "economy" and a good deal
more readiness to face the new situation and fight
to get back the traffic that would be lost to them
from them. What they might have to pay officials
who could do that, and how many they might have
to put on the job, are matters of minor importance.

Forty Years Ago

From the files of the Edmonton Bulletin

Twenty-five children have already been brought
to Edmonton this season.

The hammer of the fire bell has been fixed
to future a quick toll will mean fire and a slow
toll practice.

Blueberries and raspberries are being brought
into town for sale at seventy-five cents to a
dollar per bushel.

C. F. Fitzgerald arrived by Monday's train to fix
up a car for the Toronto Fair with grain, grass,
and other supplies.

W. F. Orr, in a letter to the Calgary Herald,
offers a town toll \$10,000 to any white person
who will come and maintain a good land, dry
on it and employ any kind of labor except
Chinese.

Major McCauley has made a collection of native
grains in the district of which the following are
samples: Pavane, 8 1/2 inches. Red Top, 6 1/2
inches. Yellow Top, 6 1/2 inches. Timothy, 4 1/2
inches. 4 1/2 inches. He also collected samples
of grain, including barley, 4 1/2 long and wheat 4 1/2
inches.

News has been received from what appears to be
a reliable source to the effect that a government
engineer will visit Edmonton this year to inspect
and report on the condition of the main water
works and to the location of the long desired bridge.

The official figures of deaths from cholera in
Russia on Tuesday were eight thousand seven hundred
and forty-two (8,742).

THIRTY YEARS AGO

M. Aldous, chief of the land department of
the B. C. Co., will arrive on Wednesday's train.
John Duguid is to operate the new Glover Bar
ferry.

The ditch through the swamp on the base line
will be completed. The ditch is a
mile and a half long.

The Idings Bros., who represent a million
dollars of the Canadian land, and in the United
States, are to visit Edmonton this week and may
go north to Lesser Slave Lake.

Dr. T. H. Shaw, J. L. Mills and H. Christian
hugged 200 lbs. each at breakfast on Wednesday.

Work on the spur track is progressing slowly
and at the present rate of progress the line will
not be ready for operation before the first of
October.

Arrangements have been announced for a direct
service between Canora and Edmonton via the
first through train between Port Arthur and
Winnipeg on the C.N.R. will be run next week.

TWENTY YEARS AGO

TORONTO: A movement to "take the navy
question out of politics" has been started here by a
group of prominent citizens. The movement is to
keep the navy question secret, but who claim that the proposal
is meeting with failure in Montreal and Winnipeg.

Washington: Roosevelt desired, in a statement,
that he knew anything about Standard Oil having
made a contribution to the Republican campaign
fund in 1896.

Ottawa: It is estimated that British capital in-
vested in Canada now amounts to \$2,000,000,000.
Harvesting operations are well under way
throughout central Alberta.

The Ground News has its appearance.

TEN YEARS AGO

Calgary: The Alberta and B.C. was practically
settled when the operators and miners reached an
agreement on the wage question.

Vancouver: Unemployed men who played unbalanced
the doors of the Parliament buildings, entered and
wrecked the furniture.

Cork: Michael Collins left fighting to the last
against an overwhelming force of rebels who had
bushes his little party on a wild mountain range
between Macroom and Beroun.

Winnipeg: The best average harvest since 1915
is the present estimate of the western crop.
Vancouver: The Steadman expedition sailed
yesterday from Nume, under command of Capt.
Bernard.

Steadfastness

By Edgar A. Guer
Men ought to stand erect in times of care.
God fashioned them the loads of life to bear.

And through the dreary, dismal hours and long
God gave to them the faith to keep them strong.

Children may cry beneath the touch of pain
And women feel their shelter from the rain.

But when the tempest strikes or danger nigh,
'Tis then the man, courageous, best appears.

Let us stand fast though storms our roof trees
shake
For when the time is past, the clouds will
break.

SIDE GLANCES - By George Clark

"Let's not camp until we see if there's a farmer near with a washing machine we can use."

Comment
Horoscope
By Mary Blaise

A PROSPEROUS INDUSTRY
Ontario will produce almost
\$600,000,000 worth of gold this year.
That will mean about \$200,000,000
worth for the whole Dominion, or
an increase of 50 per cent
in the last three years, in
spite of the dire depression. The
production figures are:

1929	\$38,160,000
1928	\$42,327,000
1927	\$53,580,000
1926	\$38,000,000

There is a very considerable
industrial significance in this.
While the employment in gold
mining does not begin to compare
with the employment in coal min-
ing, the thousands of men are at
work in the gold mines, and a
greater number find employment in
producing the many millions of
dollars worth of machinery, equip-
ment and supplies that are re-
quired, for the mine every year.

Individually, there are 7,000 men
now engaged in placer mining in
the rivers of British Columbia.
Many of them were out of work,
and they were sustained by the
government to go at working the
placer gravel in order to main-
tain themselves, as well as the
proceeds of the sale of the gold
that is produced are not all
paid in profits. The greater part
of the proceeds is spent on wages,
equipment and supplies. That is
where the country benefits from
gold mining.—Manitoba Free
Press.

CANADA'S "FREE" CANALS
Every Canadian boat that passes
through the Panama Canal pays
an average toll in excess of \$4,000
or about \$1 a ton of cargo carried.
Every ton of cargo carried through
the St. Lawrence Canal pays \$1.50
in traffic tolls. The Manchester
Steam Navigation Company, which
operates the Canadian mail service,
is charging tolls.

The Panama Canal each year
makes enough profit, after operat-
ing expenses, depreciation and
amortization of the property ac-
quired, to return the United States
government about three per cent
on its investment. The St. Lawrence
Canal pays annual dividends
of 26 per cent per year.

The Manchester Steam Navigation
Company has a total investment
of \$30,000,000 of bonds and
5 per cent dividends on \$45,
000,000 of stock.

But the Canadian taxpayers pay
all the expenses of vessels, of any
country in the world passing
through the Welland Canal.

The Passing Show

By J. S. Cooper

Minist mills will finally admit that a good
foundation for closer Empire trade has been laid
by the Economic Conference. The agreements
arrived at constitute a definite advance toward
Empire inter-trade. If substantial mutual benefits
are shown, long before the five years of the present
agreement has elapsed, they may hope to see the
list of commodities increased.

Six cents a bushel preference for the Canadian
wheat grower is more than the wheat grower had
hoped for. A substantial preference has been
granted to present day prices.

Preference for Canadian butter of \$1.75 per hundred-
weight is given. The price of butter is \$1.90
per hundredweight on Canadian peaches and apples
and from 20 cents to 40 cents per ten dozens of eggs.

But the western farmer substantial preference.
The restrictions on the importation of Canadian live
cattle are to be removed and the quota on Canadian
hides and skins raised up to 2,500,000 hundred-
weight per annum.

British Columbia will also receive ample bene-
fit. The trade, which was weakened out of
its torpidity, only to come to sleep again, by
news of the 10 per cent British preference, can
now get down to work. The new tariff prefer-
ence for Canadian lumber is made permanent if the
point that it can only be removed with the consent
of the Dominion is maintained.

Best assurance for lumber is that it is among
those commodities given further protection by
promise of action against "dumping" by other
countries. If it is seen that the intention of the prefer-
ence is being defeated. This will give the B. C.
lumberman assurance against the Russian and
Baltic producers.

B. C. has been handicapped in the British mar-
ket by reason of the difference between its timber
measurements and those of Britain. An inch board
in Canada measures 12-1/2 inches, in thickness, and
allow for sawdust and shavings in routing and
planing. An inch board in Britain is 14-1/2 inches
in thickness. The new laws in the B. C. mills have
been set for 12-1/2 inches, and the manufacturers have
been told to change them. British lumber users
have been told to change them. British lumber users
have been told to change them.

One mill which pioneered on the change has already
secured benefits by ship-load orders for Britain.

Copper, which has been a drug on the market
for some years, selling as low as 9 cents a pound,
is now selling at 12 cents a pound. The price, it is
given a 4 cents a pound preference.

British Columbia's production of copper in 1929
amounted to \$6,421,545 pounds, valued at \$1,732,325.
The 4 cents a pound preference would add \$261,691,
80 cents to its value, and will offset the recent appli-
cation in the United States of a four cents a pound
preference against Canadian copper.

The working of the agreement in regard to pro-
tection is illustrative of how it will work in many
things. With Canada's British manufacturers, and
again in United States and in other foreign coun-
tries, Canada and Britain and the other British
Dominions will now try the experiment of trading
between themselves. The new tariff prefer-
ence makes sense in their own view.

It might make a philosopher from Mars marvel
how we are so slow to make the most of our ad-
vantages. This idea of Britain helping each other
instead of helping those whose tariffs are directed
against them is a logical deduction.

For this great advance in Empire economic
fellowship, the greatest credit must go to one who
was not a delegate to the Conference. Lord Beaver-
brook, the British Minister of Commerce, has de-
vised his energy and newspaper resources to the
cause. He has been the driving force in the terms in
which his energy and newspaper resources to the
cause. He has been the driving force in the terms in
which his energy and newspaper resources to the
cause.

Our own Premier Bennett deserves high praise
for his part in the conference. He was the driving
force. He was the driving force in the terms in
which his energy and newspaper resources to the
cause. He has been the driving force in the terms in
which his energy and newspaper resources to the
cause.

The same elements that rushed about on the
heels of Lord Beaverbrook, did not spare Bennett.
During the sittings of the Conference the
London Star (which is under the same ownership
as the London News) carried out all sense of
decency to the winds and headlined a cable from
Ottawa: "Bennett Official Buffoon." "Crude Humor
on Serious Matters."

The scurrilous article in part
"He was a modern Moses waiting to lead
the whole Empire into the Promised Land."
New the gulf is blown to the wind in the preliminary
talking. The Lord of Empire Free Trade,
the man of iron will and caution decision
not only has been blown to the wind but he has
been blown to believe. "The opinion is held that Mr.
Bennett has played the bluff long enough."

The Star might have waited. But, there
here it would not have perpetrated its
scurrilous and mad deed of jealousy.

If we may not have a visitor from Mars, may
we have a visitor from Mr. Hugo Gernsback,
publisher of scientific works, is confident that the
new magazine "The World Tomorrow" will be
able to visit Mars—and return alive. He sees great
promise in the possibilities of rocket airplanes. He
predicts:

Regular passenger-carrying "rocket" air-
planes flying from the earth to the moon,
Mars and Venus, within fifty years, leaving
return tickets.

Colonization of inhabitable planets by
the surplus population of the earth within
century.

Wireless and television communications
between the earth and most of the stars and
planets within fifty years.

Transatlantic flights in eleven minutes
within twenty years.

He thinks there will be "space-lanes" gravitat-
ing 500 miles above the earth for refueling pur-
poses, the machines drawing fuel and power by
wireless and requiring rocket aid only to pierce
the earth's atmosphere.

Well, Mr. Gernsback, the Atlantic in a Month,
Picked went into the stratosphere last week in a
balloon.

Who men keep silent when prophets talk these
days.

Health and Diet Advice

By Dr. Frank McCoy

Dr. McCoy's menus suggested for the week be-
ginning Sunday, August 26.

SUNDAY—Breakfast: Grapefruit, dish of col-
lage cheese. Lunch: "Combination salad," dish of
battered asparagus. Dinner: Salmon cocktail (see
recipe August 13th), asparagus, cauliflower, artichok,
canned corn, spinach, stuffed celery, rice, ice-cream.

MONDAY—Breakfast: Coddled egg, Melba toast,
strawberries, Canadian Fresh Fruit. Lunch: Asparagus,
one kind, glass of milk. Dinner: Salisbury steak,
string beans, beefs, salad of head lettuce with peas,
hot dressing, baked potatoes with dash of
whipped cream.

TUESDAY—Breakfast: Glass of orange juice
over orange, broiled chicken, wholewheat bread, but-
ter, applesauce. Lunch: Roasted carrots with
parsley butter, salad of raw cabbage and pineapple.
Dinner: Roast veal, squash, small green peas, salad
of tomato and celery, small slice of watermelon.

WEDNESDAY—Breakfast: Large dish of berries
(fresh or canned) with cream. Lunch: Spinach
cottage, small dish of green peas, butter, water-
melon. Dinner: Tomato bouillabaisse, a minute cab-
bage, salad of shredded raw spinach and parsley,
Zell or Jell-vee.

THURSDAY—Breakfast: Cantaloupe, eggs
poached in milk, on Melba toast. Lunch: Large
glass of tomato juice. Dinner: Vegetable soup, roast
beef, Canadian maple syrup, water, cooked lettuce,
salad of stuffed beets, ice-cream.

FRIDAY—Breakfast: Cottage cheese, pineapple.
Lunch: Avocado salad, celery, rice, olive. Dinner:
Broiled fish, asparagus, small green peas, salad
(lettuce, tomatoes and cucumbers), no dessert.

SATURDAY—Breakfast: Grapefruit over aspara-
gus, coddled egg, small portion of strawberries, water-
melon. Lunch: Asparagus, small dish of green peas,
butter, watermelon. Dinner: Tomato bouillabaisse,
stuffed pork, string beans, baked cucumbers, salad
of shredded raw spinach and parsley, Zell or Jell-vee.

"SALAD COMBINATION: Pineapple, peanut
nuts and shredded lettuce. Peas, celery, carrots,
canned corn, spinach and asparagus. Cabbage,
beets, celery and nuts. Cucumbers, beets and cottage
cheese. Asparagus, egg, lettuce, watermelon and
cantaloupe. Lettuce, pineapple and collared
cabbage cheese on lettuce.

NOTE—Each combination includes a protein
food, a carbohydrate food and a vegetable food, and
should be used as a meal in itself, or with a meal
composed of only one or two vegetables. Do not use with
a protein food, as it is a protein food.

Regarding the correct combinations of the
various food elements, I will be glad to mail them
in your own receipt of a large self-addressed
stamped envelope.

QUESTIONS AND ANSWERS
QUESTION: Mr. Norton R. writes: "I suffer from

Young Love Like Fire—Won't Stay Down
By VIRGINIA LEE

"Some say it's madness
And some say it's love."

Parents usually seem to say it's madness and try to squelch it. But young love will burn. You think you can put it out, and then you find it breaking out in a new place. You think you've gotten it under control, and then you find it has been secretly smoldering, and now it is all over the place. You think you've gotten it under control, and then you find it has been secretly smoldering, and now it is all over the place.

Minute Make-Ups
By V. L.

Invaluable cosmetics have the little beauty tricks as much as the flowers that they receive. Eau de Cologne in an atomizer perfumed soap, natural tones, scented hand cream for arms which have been roughened by the elements, will come in handy. Talcum and face powders will be much to "pick up" the picture's morale.

What New York Is Wearing
By ANNABELLE WORTHINGTON

Sheer linen pants for summer daytime wear are exceedingly popular as is this charmingly slender model. The deep V-shape of the bodice at the front, combines with the panel effect of the skirt to give height to the figure.

THIS MOTHER TOO INDULGENT

DEAR MISS DIN—I was left a widow with a small boy less than three years old. I received from my husband's estate, work and support, say so on that inheritance matter. Now a grown-up, has finished school and he will soon come into his estate. Owing to the depression I have lost my job and my son tells me that I must leave the house, that he wishes to have nothing more to do with me and that I shall never receive any children. Is there any ground for this?

Answer: No unless they are taught to appreciate what is done for them. Your children are given into her hands as you have seen. You have spent 10 years in pampering and spoiling your son. He will always think that mother knows best. If she expects appreciation from them, they will be grateful for everything she does for them.

That's a hard thing to say to a mother, but it is true. Her children are given into her hands as you have seen. You have spent 10 years in pampering and spoiling your son. He will always think that mother knows best. If she expects appreciation from them, they will be grateful for everything she does for them.

Most mothers bring up their children on the miracle plan, the idiotically optimistic belief that they can let little Johnny and little Mary treat them as the dog and the cat. They are grown up they will somehow change and appreciate all mother has done for them, and love her and look up to her as she loves them.

But there are no miracles in child-rearing. It is a lot of routine logic. Cause and effect. If a woman has let her children "have" her when they were babies, they will say things to her that will break her heart when they are grown. If she has been shabby that they might have money, they will take the very clothes off her back when they are grown to buy themselves new ones. If she has never thought of him as anything but a servant to minister to her needs, they will never lift the convulsive off her back, and when they are married they will make marriage a misery. If she has taken care of her children whenever they want to take a trip, or the children get on their nerves.

"Train up a child in the way he should go, and when he is old he will not depart from it," said the wisest of men. When a mother does that, she does it for her children and they value her just according to the figures she puts on it. If she teaches them to treat her with respect and consideration, and be grateful to her for what she does for them, they honor her and consider her. But if she teaches them that mother will stand for any old treatment, she gets just precisely that.

It is too late for you, Mrs. L. V. To undo what you have done. You must teach the teenagers of your own family, but I trust some of the mothers who read this will profit by your misadventure and save themselves from the bitterness of a similar fate.

DOROTHY RIX.

THE HOUSEWIFE'S Idea Box

Generosity in love is shown in this mouth.

AN EASY PIE CRAB

If you have no flour for a pie crust or do not care to bother making a pie crust, use Graham crackers for a delicious substitute. Roll the crackers and sift the crumbs. Butter well a pie plate, preferably a glass one. Sprinkle thickly with your cracker crumbs. Use just as many crumbs as will adhere to the butter. Fill and bake.

Let's help the monkey to his feet, or else find him a nice broad seat. I hardly think that he will wait while any more.

"As long as we have been shown

Never saw ravens, wrens or colored clothes that you are going to wash.

Sonnysayings

By FANNY V. CONY

Then Duncy said, "I have a lunch for something better for this bunch. I'll not be long in getting it, so you wait."

YOUR DAILY DOSE OF VITAMINS

Very few people understand how to secure from their diet the full benefit of every household item. Food value does not depend only on the percentage of proteins, carbohydrates, fats and salts in any particular article of diet, but also on the presence of vitamins, those elusive factors which are so easily destroyed by stering food, by overcooking or overeating it.

In the first place we must be sure that our food is fresh, and it is the housewife's duty to see that the signs by which she may detect any falling off in quality are the primary standard. Next, we must be sure that it has not had its valuable qualities destroyed by over-refinement. And the manner of cooking is of paramount importance. Current methods of cooking not only destroy the vitamins, but also insure nourishment being retained instead of thrown away.

The food value of green vegetables is so great that it is safe to say that the average individual can get his maintenance in perfect health without the aid of a vitamin supplement. They have a threefold value—first, they are rich in vitamins; second, they are a source of minerals; third, they are a source of energy. It is necessary to the body and mind to consume a certain amount of food that is "roughage" without which elimination of waste matter from the body is not complete or regular.

It is very important to remember that some of these properties are destroyed by cooking. Many vitamins are destroyed by heat, and the mineral salts are dissolved into the water. When food is overcooked, the vitamins are destroyed, and the mineral salts are dissolved into the water. When food is overcooked, the vitamins are destroyed, and the mineral salts are dissolved into the water.

SOUTH SIDE SQUARE SEVEN

Canadian in Newport Casino Tennis Meet

Walter Martin, Regina, shown playing Rega Lott, U.S.A.

Al Ritchie, Dean of Western Football Coaches, Retires From Fall Game

By Bill Lewis

If Henry Loyer's South Side Arctics were out in this northern Canadian baseball series, with Arctics, they can hand the home of credit to his, Harry Thompson, the Brandon right-hander, and they'll be making no mistake.

Twice during this current play-off, the South Side Arctics have been trailing the Miners by one game, and last night they even faced elimination, but twice also, this time, this Harry Thompson, he took the field like a general leading his army.

It has been the strong right arm of Thompson, who has actually saved the Arctics from paucity of the picture before the provincial finals, and you're safe in saying that the lights in the stadium for it has been been in the hands of the Arctics, and he's been thinking "what might have been" right today.

The series isn't won yet, by any means, but it is Thompson who has the championship stars in his hand, if the championship stars are in his hand.

Something from baseball to Canadian football, I might tell you that Edmonton is now definitely assured of having a shot at the Edmonton team competing at the gridiron was this fact. As a matter of fact, it is in definite that a game of some sort is scheduled for the week-end.

What more, it appears right now that the Eskimos are right in the game, a stronger team than has represented this city on the gridiron in years and years.

One of the men who will add strength to the Eskimo this year is Henry Robson, who has been playing halfback of the Dawson Wolves in 1924, who has been in the city in 1924 and is important to get into action.

Jimmy, who played a lot of seasons in the Canadian football league, has been in the city in 1924 and is important to get into action.

Regina Roughriders after a blow this fall with the loss of Al Ritchie, as coach, has three more strong contenders on the roster. The Roughriders, who have been in the city in 1924 and is important to get into action.

However, it is possible that Al Ritchie will still be an assistant coach of the Roughriders, who have been in the city in 1924 and is important to get into action.

With grinders going west, it seems certain that the game this year is being one of the best seasons on the gridiron.

CUB OFFENSIVE DOOMS DODGERS

Chicago Beats Brooklyn's Chances Badly

CHICAGO, Aug. 26.—The Cubs did it again yesterday. They smothered the Brooklyn Dodgers even into a 3 to 2 defeat, and just about knocked the National League pennant away in their pockets so far as Brooklyn's challenge for the title is concerned.

The "trench" brigade scored in the first inning, and served to emphasize a little more their claim to the title.

Ray Bush went the route for the Cubs, striking out seven batters, and allowing only seven hits, while the Dodgers' lineup was hit for 13 hits, including a double, a triple, and a home run.

R.M.E. Brooklyn 000 000—3 7 10. Chicago 3 2 0—6 10 000 9 13 2.

Clark, Phipps, Quinn, Thomas and Loper, Phipps, Smith and Hartnett.

SANGUDO WILL BATTLE ONOWAY

A baseball game that has attracted wide attention in the district northwest of the city is scheduled at Alberton Beach on Saturday afternoon at five o'clock when Sangudo will oppose Onoway for the championship of the district.

Onoway, who has been shown in the game and large side bats are reported to have been used by followers of the team.

REGINATOR UNDER ORDERS FROM DOCTOR

Colorful Hickey in Gridiron and Hockey Will Be Missed

REGINA, Aug. 26.—The week's greatest rugby authority and coach Henry Loyer (Al) Ritchie, boss of almost all the good rugby and some of the best hockey in the world after Canadian championships, "is" retired.

He announced yesterday he would not coach Regina Roughriders this fall. The grid machine he wielded in several seasons has been one of the strongest teams in the country is turned over to Ritchie's starliner half-back, Curtis Schell, former University of North Dakota star.

MAY BE BACK. Ritchie's retirement may be only temporary, high blood pressure keeping the famous coach out of action for at least six months. But it is doubtful if he will guide the Junior Pats, youth hockey team who won two Canadian titles under his direction.

Roughriders won six straight Western titles with Ritchie as coach, and he has won three Canadian championships with the Roughriders since he took over the reins.

He has been in the city in 1924 and is important to get into action.

He has been in the city in 1924 and is important to get into action.

LEAF'S SHOW NEW POWER AT TORONTO

Cellar Residents Alive as Albany Takes a Trimming

NEW YORK, Aug. 26.—Going on a having spree, Toronto Leafs, international League last, ended, pounded out a 3 to 2 victory over the Albany Americans yesterday.

Leafs, who have been in the city in 1924 and is important to get into action.

Leafs, who have been in the city in 1924 and is important to get into action.

BIG THOMPSON TWIRLS SECOND WIN OF PLAY OFF

Turns Back Miners by Score of 6-3 in Hard-Fought Diamond Duel—Visitors Score All Runs During Fifth-inning Rally

With "Brandon Harry" Thompson in fighting mood and the rest of the team backing him up with glove and bat, Henry Loyer's South Side Arctics warded off elimination from the Northern Alberta senior amateur playdowns at Diamond Park Thursday evening by turning back the Edmonton Miners 6 to 3. The series now stands dedicated to two games all. The fifth and deciding game will take place Friday at 5:30 p.m.

Arctics, fighting with their backs to the wall showed a reversal of the form that marked their encounter with the visitors last Tuesday. Thompson was practically invincible from the start, but for an error by Martell at third, his shut-out would have walked off the diamond with another scarp coming from his belt.

Thompson yielded but five hits, three of them in the fifth inning, but for an error by Martell at third, his shut-out would have walked off the diamond with another scarp coming from his belt.

Thompson yielded but five hits, three of them in the fifth inning, but for an error by Martell at third, his shut-out would have walked off the diamond with another scarp coming from his belt.

Thompson yielded but five hits, three of them in the fifth inning, but for an error by Martell at third, his shut-out would have walked off the diamond with another scarp coming from his belt.

Forlorn Figures

By CLIFFORD McBRIDE

MR. AND MRS.

In The Land of Equal Rights

I THINK IT'S A SHAME RESTAURANTS DON'T LET MEN TAKE OFF THEIR COATS IN SUMMER.

WHAT PUT THAT IN YOUR HEAD?

WHY THAT YOUNG MAN THERE. SEE HOW NEAT HE LOOKS, EVEN WITHOUT ANY NECKTIE, JUST COOL AND CLEAN.

YES, BUT—

IF THEY LET HIM IN WITHOUT A COAT, THEY'D HAVE TO LET THAT BIRD ACROSS THE WAY IN, TOO.

OH, I GUESS THERE CAN'T BE ANYTHING DONE ABOUT IT.

—By Smith

THE GUMPS

Paid In Full

AND NOW—HENRIETTA IS FREED FROM HER WORRIES ABOUT THAT NECKLACE—SHE HAS TAKEN OUR TIP AND HASTENED TO SCOOGE'S OFFICE TO GIVE HIM THE PAWN TICKET—WHEN SHE SETTLING WITH HIM THERE, THEY CAN LIFT THE NECKLACE DOORS IN HIS VAULT AS LONG AS HE LIVES WILL BE SMOOTH AGAIN.

WELL—SCOOGE—YOU SEE I AM HERE—I SAID I WOULD COME AND HERE I AM.

WELL—HOW ABOUT THE PEARL NECKLACE—DID YOU BRING THAT?

NO! BUT HERE IS THE PAWN TICKET FOR IT—PURCHASED IT FROM TOWNSEND SANDER—THAT BELIEVES YOU OF ALL RESPONSIBILITY OR LOANING THE NECKLACE—PAWN TICKET—I WILL KEEP THE PEARL.

ALL I WANT NOW IS THE \$5,000 OF WHICH INTEREST THAT LOANED HIM ON IT.

WHY—HENRIETTA—WHY BRINGS YOU HERE?

LET'S LEAVE AT THE FIRST INTERMISSION, UNCLE WALT.

GASOLINE ALLEY

Too Much Noise

AFTER THE BATTLE OF PRINCETON, NEW JERSEY WASHINGTON TURNED NORTHWARD AND STATIONED HIS ARMY AT MORRISTOWN FROM WHICH POINT HE COULD ANNOY THE BRITISH. THEY EVENTUALLY MOVED BACK TO STATEN ISLAND, SOUTH OF NEW YORK, WHERE MOVIE WOULD STRIKE NEXT WAS A LUXURIOUS UNTIL SHIPS LAID WITH HIS ARMY APPEARED IN CHESAPEAKE BAY AND LANDED AT THE HEAD OF ELK, ABOUT FIFTY MILES FROM PHILADELPHIA.

WASHINGTON CHOSE THE BRANDYWINE CREEK WEST OF PHILADELPHIA AS HIS LINE OF DEFENSE. NOW, BY A FORCED MARCH GOT AROUND THE AMERICAN RIGHT WING AND WASHINGTON HAD TO RETREAT WITH SERIOUS LOSSES. THE WAY WAS OPEN TO PHILADELPHIA, WHICH WAS SOON OCCUPIED.

EXPORT LULL EASES WHEAT PRICES LOWER

WINNIPEG, Aug. 26.—Symptomatic of a lull in export trade at Liverpool and a lull in the Chicago market, today's wheat prices were lower. The price of No. 1 hard winter wheat at the close revealed losses of 1/2 cent. Chicago closed at 80 1/2 December, at 80 1/2 and 1/2 May at 80 1/2.

Offerings were of good volume, although the selling was not credited to the clearing operations but support in the deferred month stemmed the decline. This support was one of the main points of the market Thursday and came from Chicago and seaboard interests.

No grain was placed on the amount of grain for export but it was noted that fairly good sales were made. Cables confirmed the purchases of three cargoes of Canadian wheat from Churchill and one from Montreal. The weather report in the west showed signs of clearing today but the smaller rains were reflected in the annual movement of country wheat to elevators.

Cash wheat and curve grain continued their uninteresting trade at prices generally unchanged.

CLEMENCY BRINGS BOTH JOY, ANGER

CORUNA, Spain, Aug. 26.—News of the clemency extended to General Sanjurjo was received with enthusiasm last night in his home province. Extraordinary precautions were adopted to prevent any antagonistic demonstrations.

Hislaio Spain, Aug. 26.—Communists staged an outbreak protesting the government's leniency to General Sanjurjo last night and will guard reinforcements to the coast, in the nearby town of Calles. A Communist was reported dead and several wounded.

Maize To Come To Canada Free

OTTAWA, Aug. 26.—Under the new trade agreement between South Africa and Canada, corn or maize, as it is called in that country, will come into Canada free, it is stated here. In South Africa a bonus is given corn exported and consigned to the United States. The bonus of the dumping tax being applied to them. In the agreement South Africa undertakes to pay a bonus corn coming to Canada.

HOLLYWOOD GOSSIP

INTIMATE GLIMPSES AND INSIDE STUFF ON THE MOVIE COLONY
By DAN THOMAS

Another Grand Hotel "Opinion" HOLLYWOOD, Aug. 26.—Going social around Hollywood: At the opening of Grand Hotel, the usual number of celebrities who always attend such functions trying to outdo one another in the display of white gowns to show off her tan and each other.

Maize To Come To Canada Free OTTAWA, Aug. 26.—Under the new trade agreement between South Africa and Canada, corn or maize, as it is called in that country, will come into Canada free, it is stated here. In South Africa a bonus is given corn exported and consigned to the United States. The bonus of the dumping tax being applied to them. In the agreement South Africa undertakes to pay a bonus corn coming to Canada.

BOTTLING UP BIG IOWA CITY TO BE TRIED

3,000 Additional Aides Mass in Blockades of Highways

COUNCIL BLUFFS, Ia., Aug. 26.—Striking farmers consolidated their positions today in a determined attempt to bottle up Council Bluffs, gateway to the important Omaha, Neb., market, connected by a vitriol in gaining freedom under bond of 35 of their highway pickets. Reinforced by a committee from northwestern Iowa, 3,000 of them, they were met by officials, who were massed in blockades along the principal highways leading into Council Bluffs—apparently in full control of traffic.

Saturday
8:30 a.m. to
5:30 p.m.
